- Operations
- Property & Construction

- **Start-up programme**
- **New to New Zealand**
- **Auckland Based**

Youth Horizons is a successful values and evidence-based organisation committed to bi-cultural practice. Founded twelve years ago to develop programmes for New Zealand's most behaviorally challenged and at-risk youth and their families, we are now delighted to offer a unique opportunity for a skilled and experienced practitioner. You will lead our new evidenced-based Multi-Dimensional Treatment Fostercare Programme for young people with severe behavioural problems.

Building on your existing experience treating troubled youth, you will be fully trained by the founders of Multi-Dimensional Treatment Fostercare in the United States, mid April. You will lead the first team to implement this Programme in New Zealand. The supervisor role is pivotal to the success of this treatment and key tasks include: the recruitment and training of staff, clinical supervision and provision of line management. The role will be responsible for efficient service management as well as the integrity and effectiveness of the Programme.

To be successful in this highly rewarding role, you will hold a Master's degree in psychology or a related field, and have experience in a cognitive-behavioural approach to assessing and treating troubled youth and their families. You will have excellent communication, relationship, and organisational skills, and experience managing a team. You will be a keen adopter of new practice models and, while flexible in your approach, understand the importance of model fidelity.

To apply for this position please visit our Hot Jobs at www.h2r.co.nz and refer to reference number 12749. For further information please contact Lynda Goston on 09 368 7300. All applications will be acknowledged by email. Closing date 16 March 2009.
